

PANZERKABEL®
LWL PRO Cable

PANZERKABEL® – LWL PRO CABLE

This heavy-duty armored cable from the LWL-PRO series was specially developed for mobile applications.

The cable construction is designed for frequent winding and unwinding. This extremely durable fiber optic cable with steel armor and a PUR cable jacket is crush-resistant and resistant to being run over by vehicles.

The PUR cable jacket ensures a long service life of the fiber optic cable; at the same time, the cable is ideally suited for outdoor use. Reinforced with aramid fibers, the fiber optic cable withstands high tensile loads. With a cable diameter of only 5 mm, the cable is very flexible and easy to wind.

The steel-reinforced fiber optic cable offers optimal protection against damage and is particularly suitable for demanding applications in events, military, and industrial settings. The black sheathing ensures discreet installations. Removable protective sleeves with a practical pull-in aid facilitate disassembly and allow for the transmission of up to 8 LC fibers.

Single-mode and multi-mode fibers in various cable lengths are available from stock. The cable length on the auxiliary winding is 5 m.

NO MORE BROKEN CABLES!

Metal-reinforced PANZERKABEL® ensure reliable signal transmission – even under the harshest conditions.

PANZERKABEL®

PANZERKABEL® – LWL PRO CABLE

Specification

Connector Side A: 4/8 x LC
Connector Side B: 4/8 x LC
Length: as selected
Integrated steel armor
Sheath material: PUR
Sheath color: black
Cable diameter: approx. 5 mm
Minimum bending radius: approx. 50 mm
RoHS compliant
Each cable comes with an individual test report
Cable protection at both ends
Fiber: Singlemode OS2
Fasertyp: 9/125 µ
Faser: Multimode OM3
Fiber type: 50/125 µ
Halogen-free according to EN50267-2-3
Weight: 7,5 kg
Dimensions: 32 × 26 × 40 cm

EAN	Designation
04262477290131	4 x LC 200 m Multi-Mode
04262477290148	4 x LC 200 m Single-Mode
04262477290155	8 x LC 200 m Multi-Mode
04262477290162	8 x LC 200 m Single-Mode
