

BRACKETS FROM PANZERKABEL®

VIDEOKRAFTWAGEN FROM PANZERKABEL®

Auerbox

*Optional:
Set of 4 rollers*

PANZERKABEL® offers a practical solution for the mobile installation of stage preview monitors with its **Video-kraftwagen**. This is a rolling floor stand for stage preview displays. Products of this kind were previously unavailable for AV rental. The rolling stand weighs only 12.0 kg and folds down to a compact height of 21.5 cm for transport.

In the lower section, power distribution units or converter boxes disappear from view on the magnetic base plate. For further optical shielding, customized screens can be inserted. The tilt of the VKW is adjustable in four positions. Thanks to the Audipack mount, monitors with appropriate brackets can be mounted directly. The video truck supports monitors up to 55 inches as standard, and even up to 75 inches with an optional extension plate. The matching set of 4 rollers for our VKW can also be ordered in the shop.

Dimensions Videokraftwagen (VKW)

with wheels and folded:

71.0 x 48.0 x 21.5 cm (L x W x H)

Material: Sturdy tubular steel frame, black, powder-coated

Shipping weight: 12.0 kg

Shipping weight: 8.0 kg

VKW with 43" monitor

VKW with 55" monitor

*VKW with 75" monitor and
Expansion plate*

VIDEOTISCHFUSS FROM PANZERKABEL®

Videotischfuss front

Videotischfuss side

The elegant and stylish Videotischfuss (VTF) is used for the secure mounting of monitors from 32" to 55" up to a maximum weight of 20 kg. It features an Audipack 5-pin receptacle, allowing direct attachment of 5-pin brackets. Brackets are optionally available from PANZERKABEL®.

The mounting plate for the Videotischfuss is made of V2A stainless steel, with basic dimension of 30.0 x 30.0 cm. The vertical mounting plate can also be used as an adapter plate for the video cart. Felt glides prevent scratching of the table. Quick assembly/disassembly with just two screws is guaranteed.

Planned and designed in Germany, manufactured in the EU European precision manufacturing.
